### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Thomas Y. Ho on 03/09/2009.

The application has been amended as follows:

Cancel claims 129-138, 140, and 156-174.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The applied art of record fails to disclose or suggest the combination of the claimed method for wrapping a load with a film web as been argued and supported by the reasons provided in the filed remarks of 01/08/2009. In particular, the prior art of record fails to disclose among other steps the combination of the steps of driving at least a portion of the film web from a first elevation to a second elevation lower than the first elevation through rotation of one of an upstream guide roller and a downstream guide roller, moving one of the guide rollers from a film drive down configuration to a non-drive down configuration, and during the wrapping cycle, rolling a portion of the film web into a cable, see for example (Figs. 5B and 6C; via guide rollers 132 and 137, rolled cable film 113a).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
